

# SUMMER READING

## TRACK YOUR PROGRESS

Each starfish = 20 minutes of singing,  
talking, reading, writing or playing

# ABOUT THE PROGRAM

Have you ever wanted the Summer Reading Program to involve more than reading? Especially if your child is a pre-reader? This is the year for you!

Singing, talking, reading, writing, and playing are fundamental elements of getting your child ready to read. We know you use these elements at home. So document them! We suggest 20 minutes as a starting point, but of course it's great if you do any of these activities more than 20 minutes a day!

Please share your excitement with us! Whether in a library building or on social media, we want to hear all about your summer and the books and activities you are enjoying! We will be posting missions on our social media that can be tracked on READsquared and enter you into our drawing for gift card prizes.

Track your goal and missions online at [mld.readsquared.com](http://mld.readsquared.com), or use the READsquared app available through the Apple and Google Play app stores.
